

White Bostwick style (scissor) gate

Scissor Gate

Scissor gates first appeared on elevators over 100 years ago, without much aesthetic consideration. Today they are used as design elements, creating a look that can be nostalgic and traditional or sleek and contemporary. In keeping with the high quality of other components in our elevators, we use only heavy-duty "Bostwick" style scissor gates. Upright stiles every 3" provide rigidity not found in scissor gates having only a leading stile. Every stile has a 3-wheel

truck, with roller bearings and urethane tires for smooth and easy action. Scissor gates are available in a variety of finishes, including painted steel, stainless steel or brass. Scissor gates are available for manual operation only.

Slide Side Gates

Our Side Slide gate is a multi-paneled cab door that turns and slides behind the side cab wall and out of the way, thus providing the widest possible door opening.

Side Slide Gate in clear acyclic and bronze

The door panel system consists of roll-formed steel, solid wood or lightweight aluminum panels with vision windows. These panels are hinged with solid steel rods encapsulated in steel tubes. This system of tubes and panels covers the entire door opening. In fact, it covers the opening so completely that even a pencil won't fit between the panels. The Side Slide gate is available for manual operation as well as motorized.

Technology, Reliability Quality...

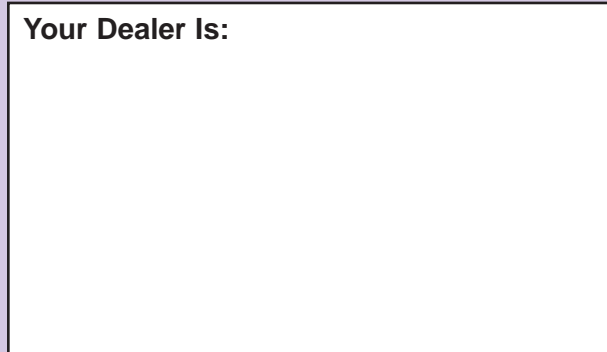

Since 1986 Elevator Concepts LTD has designed and manufactured high quality TIGER LIFT® elevators specifically for the residential and access market. While we have an extensive line of standard products, we specialize in custom designed elevators to suit unique structural or aesthetic requirement.

All TIGER LIFT® elevators combine the latest technology with value, quality and reliability, with innovations like vacuum stress skin cabs and Hall effect electronic switches.

Every TIGER LIFT® is backed by superior customer service, technical support, and an one year limited warranty.

Gate Options

Standard Accordion Gates

Each residential elevator we manufacture comes equipped with a standard vinyl accordion style gate and is included in the price of the elevator. Our accordion gates are an attractive, affordable and safe way to protect elevator car openings. Choose your gate surface from one of the four standard vinyl laminate finishes or customize with hardwood veneer or clear acrylic panels, available at an additional cost.

Built in Safety Features

At Elevator Concepts quality and safety are our top priority. Our accordion style gates feature solid panels joined with steel hinges and sealed with premium vinyl for a gate that completely closes the car opening and eliminates pinch hazards.

Standard vinyl accordion in Light Oak

Hanger assemblies of dual nylon rollers with ball bearings hubs provide easy manual operation. The extruded aluminum top track and lower guide pins keep the gate securely in position throughout its travel.

Our optional power operator featuring a smooth, quiet linear screw drive and magnetic link, provides safe and dependable automatic gate operation.

Standard Vinyl Laminate

Textured vinyl laminated to ¼" MDF core for added stability.

White

Off White

Light Oak

Dark Oak

Optional Natural Hardwoods

Natural woods are from selected genuine hardwood veneers laminated to ¼" MDF core for added stability. Optional factory finish of natural woods consist of sealer and protective lacquer top coats. Factory finished doors and partitions also minimizes moisture penetration providing increased door panel stability.

Birch

Oak

Cherry

Mahogany

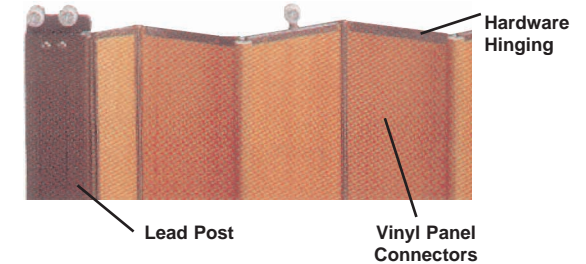

Walnut

Optional Acrylic

For a sleek, contemporary appearance many customers choose our optional acrylic accordion door panels. Available in clear or translucent smoke panels accented with clear or bronze anodized hardware.

Hardware Colors

Hardware Hinging

Clear finish is supplied on off-white and white panels. Bronze is supplied with all other doors.

Lead Post

Color coordinated to hardware.

Vinyl Panel Connectors (supplied as standard) light gray on off-white and white panels. Brown supplied with all other body panels.

Commitment to Quality

Your investment with Elevator Concepts is protected with a one year limited warranty against defects in material or workmanship.
